POWER is creative, constructive, self-sustaining, permanent, stationary, energizing and invincible.
FORCE is destructive, temporary, draining, depletes energy, and moves from location to location.

Logarithmic Energy Field Increases: 1 = 1; 2 = 10; 3 = 100; 4 = 1,000; 5 = 10,000; 6 = 100,000 ...etc.

All levels below 500 are "objective" and all levels from 500 to 1,000 are "subjective."
